

I think that K-Love is quite an asset to every community it is available in. It is inspiring, encourageing & uplifting, the staff cares about the people are available to pray for anyones needs 24/7 they also outreach in other areas of needs. I believe the effect would only be negative for children & adults with more listening to music that promotes or encourages sex & lust & violent behavior etc etc etc. I love k-love & would miss it very much. They also encourage to care about others.
